

Eco Architectural- Speaker

General Information

Gem series down light is a high-end diffuse light: which body adopt the die casting aluminum, spraying high diffuse reflectance, and high thermal conductivity and radiating materials in the light surface, adopt five surface emitting Nichia chips from Japan, diffuse light, and can't see the led chips, just like lighting by the medallions, the soft light will not harm the eyes. The design minimized lumens deprecation, external Led power supply. Extremely short response time, light up instantaneously, no flickering or glare, no stray light, can be turned on and off frequently and be adapted to various light.

Technical Information

- Power Supply: stroboflash: AC 100/240V, no strobe AC 80-140V/180-240V
- Power Consumption: 9.5W/13.5W/18W
- Light Source: Nichia miniwatt LED
- Average Lifespan: 50,000h
- Color: WW/W/CW
- Color Temperature: 2700-3500K/3500-5500K/5500-6500K
- CRI: >80
- Beam Angle: 120°
- Lumen: >780lm/>1090lm/>1310lm
- Working Temperature: -20°c- 50°c, in storage: -30°c- 80°c
- IP: IP20, non-waterproof
- Dimension: Ø116x26mm/Ø144x33mm/Ø185x39mm
- Punch Dimension: Ø105mm/Ø132mm/Ø170mm
