

OVERVIEW

Pharos control systems typically rely on networking. Many Pharos products can also be powered by Power over Ethernet. The Pharos PoE switch provides a simple unmanaged solution ideal for most applications and also provides power for four PoE devices.

SPECIFICATION

- 1+4 port unmanaged Power-over-Ethernet (PoE) switch.
- RJ45 sockets for 10/100Base-TX Ethernet (IEEE 802.3af).
- Requires 48V DC power supply.
- 0.200" [5.08mm] plug-in rising clamp terminals (supplied).
- 6 unit wide DIN enclosure.
- **CE** compliant and **ETL/cETL** listed.
- 5 year warranty.

Part Number: PoE
