emotion and creativity in light

Designed to obtain the maximum performance with a minimal amount of space, the new TURBO-COLOR is the most powerful and efficient LED Lighting fixture you can find within the single head category. Using 60 high powerful LEDs RGBW/FC combined with an effective fan system, the key feature of the product is the incredible performance of the optics.

The innovative optic system generates a rectangular and uniform light projection. The product is suitable for applications where a tremendous light output is required. The T-COLOR RGBW/FC is particularly adapted for permanent installations and can also be used easily for temporarily events.

- Standard fixture colour finishing is black. Optional grey and white (art. FX-COLOUR).
