Product Sheet

 Luminares

Linear LED fixture designated for indoor use.

Channel 4 is a versatile liner which is available in lengths of up to 2000mm in 3 of 4 channels. A choice of 20mm optics and wide range of LED configurations.

Channel 4 is simple to install, with a supplied 2 sets of attachments it can be set to 3 different positions (0, -15, +15 deg.) units can be daisy chained using a jumper cable.

Optic Range

Each unit can be specified with different optics. OVAL is designed for wall grazing.

Thermal Protection

Fixtures and controllers are thermally managed to maintain color and output over time.

High Power

Liner can be operated at 700mA, with a max. power consumption of 120W.

Remarks:

- When using this configuration option the assembly can be made in 2 ways:
equal spacing is more used for monochromatic

groups are often used in color mixing, in groups of 4 LEDs

- All daisy chained units on a single line will work as a single unit
